Steelcase

For the many ways we work today.

Work is a series of transitions. We move from individual to group work, collaboration to personal focus. FrameFour makes transitions practically seamless, providing a consistent ecosystem of spaces that support resident, nomadic, meeting workstyles throughout the work environment.

3

average number of electronic devices workers carry.

Today's workers carry their tools and technology with them. It's often difficult for them to find a destination to call their own, where they can get comfortable, recharge devices, and focus. A life in transition can make workers feel like visitors in their own workplace.

6x

research shows we change workspaces 6 times a day.

Constant transit.

Work has never been so mobile. Whether seeking a new workspace each day or moving from space to space, workers move through the day in a series of transitions. Research shows we transition from one space to another over 6 times a day and each time we lose an average of 8 minutes relocating, reconnecting, getting back to work.

An ecosystem of spaces.

FrameFour provides a complete workplace for mobile and resident workers. Real estate-efficient workspaces that support technology and tools.

D2097 | FRAMEFOUR BENCH BACK TO BACK (WY,ZW), THINK TASK CHAIR (C2C 2040, 3D KNIT 05)

FOR THE RESIDENT ZONE

This resident work area provides individual privacy while fostering connection and collaboration that helps build the group's interaction. Each workspace offers plenty of work surface, storage, technology support and tools. For greater privacy there is a space for focus and concentrate nearby that retains a sense of energy through its proximity and transparency.

D2105

FOR THE NOMADIC ZONE

Whether working alone or with others, workers can see and be seen by their peers. FrameFour comes in desk and bench configurations, with either a supporting storage leg or a four-leg frame. The collaborative space nearby is a convenient haven for information sharing and brainstorming. A consistent aesthetic with floating tops helps unite the entire work environment.

D2066

FOR THE MEETING ZONE

This flexible space is designed for deep collaboration, supporting the cycle between individual and collaborative modes throughout the duration of a project. Integrated cable management, uninterrupted leg room and broad expanses of worksurface available in FrameFour's broad statement of line invite users for productive work sessions.

D2088

Support for every workstyle.

For nomadic workers who need longer term workspaces, these temporary homebases support task work to focus and rejuvenate. The personal locker integrated in the storage leg keeps belongings secure, puts bags and backpacks within easy reach and offers multiple power outlets. A casual collaboration area provides a change of posture and a setting for sharing, evaluating and generating content.

D2071

Dedicated resident workspaces support users during long periods of focused work. Monitor support, along with storage for personal belongings maximise work area while screens provide visual privacy. FrameFour can be customized to adapt to workers' needs thanks to a wide set of features.

Make it yours.

A workspace that adapts to individual workstyles and preferences boosts user comfort, engagement and productivity.

The FrameFour storage leg makes it easy to touch down and get right to work.

Storage leg keeps bags and backpacks off the worksurface and out of the aisle, yet close at hand.

Recharge up to three different devices simultaneously.

Belongings are safe, secure and out of the way in the personal locker.

PLANNING IDEAS

An ecosystem of spaces throughout the workplace.

FrameFour offers application possibilities for the entire work environment. Open plan and private spaces, benching, collaborative and social areas, dedicated and shared desks. Choose from desking, benching, collaborating or meeting settings in a wide array of modular approaches and sizes with technology support, worktools, lighting, and privacy components that integrate seamlessly with FrameFour. Now every part of the office can support workers and work styles.

RESIDENT ZONE

Either working in teams or alone, FrameFour offers solutions of desking and benching for residential zones.

SUSTAINABILITY

DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

LIFE CYCLE

During our products development process we consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life.

Thanks to the Life Cycle Assessment (LCA) method, Steelcase is quantifying FrameFour environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

MATERIALS

Wood from European sustainably managed forests.

100% recycled cardboard.

PRODUCTION

Made by Steelcase in Rosenheim, Germany.

Optimised packaging to keep transport volumes as low as possible and improve filling rates.

TRANSPORT

Made in Europe, close to customers.

USE

Designed for a long product life, with replaceable parts.

Maintenance information available upon request.

END OF LIFE

100% theoretically recyclable cardboard and LDPE film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective recycling.

Designed to encourage responsible end of use strategies - refurbishing, charitable donation or recycling.

CERTIFICATIONS

To show continuous improvements, we communicate FrameFour environmental performance through voluntary environmental labels and declarations. Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.

PRODUCT

EPD - Environmental Product Declaration (Targeted)

PEP - Product Environmental Profile (Targeted)

NF Environnement (Targeted)

NF Office Excellence Certifié (Targeted)

Blauer Engel RAL-UZ 38 (Targeted)

SCS Indoor Advantage™ Gold (Targeted)

Cradle to Cradle™ certified Bronze (Targeted)

MATERIALS

PEFC - Programme for the Endorsement of Forest Certification

E1 - Low concentration of formaldehyde in wood

PLANTS

ISO 14001 - Environmental management system

EMAS - European Eco-Management and Audit Scheme
