

## Saga armchair

## Saga

Imagine an armchair where hours disappear in an instant. Where the extraordinary comfort makes you want to keep the chair to yourself. This is exactly what the Saga series does. And more. Designed by the Danish design duo, Anna & Signe, Saga is a fusion of unique comfort, pointed out by the inviting moulded shape, which also ensures that the seat cushions and backrest keep their shape over the years. Saga is also available in several sizes, with a matching footstool, as well as with a swivel return function, where the latter ensures that Saga in one graceful movement finds its way back to its original place in the room.
